

Our impressions from Italy

Trento : a place too far but in our hearts

From the first moment we arrived in Trento we were so impressed by its beautiful location. Under the towering mountains lay a beautiful city full of surprises.

On the first day at school, we were all given such a warm welcome by the entire staff of Liceo Linguistico Sophie M Scholl that made us feel at home. The headmaster's speech and the presentations of the school and the entire area of Trento introduced us to the climate we would be in the following days. The Italian team really out did itself by greeting everyone in their native language; it made us really feel great! Everyone had smiles on their faces and we knew that this project meeting was going to be something very special.

The entire organisation of the workshops and how they were incorporated into the final performance was cleverly done and more meaningful to the students who participated. The students enjoyed themselves thoroughly and it was truly a wonderful learning experience for them! The performance was an excellent event and proved to be the "icing on the cake" !

The teachers also had the opportunity to visit Buonconsiglio Castle and Torre Aquila on a guided tour and had a beautiful lunch on the castle grounds. So much history and tales of bishops and princes was a step back in time. Beautiful frescoes and unbelievable views!

The trip to Bolzano and the visit to the Archaeology Museum was both educational and informative for teachers and students. Meeting Otzi, the iceman, was

something truly incredible. The beautiful streets and squares of the town made our visit even more worthwhile.

The excursions left us breathless, we had so much to see and do ! The trip to the Dolomites was absolutely amazing, the snow covered mountains, the walk to the wooden shelters and, of course, the tasty meal at a truly remarkable place will be unforgettable. Our students had the opportunity to put on snowshoes for the first time in their lives. It was such a wonderful experience that we will always remember!

The wonderful sights, visits, restaurants were truly a culturally enlightening experience that we will remain with us forever. We were truly **Europeans on the MOVE** in all aspects of our trip! All ten countries together at one meeting was more than anyone could imagine.

Overall, we had the opportunity to visit a wonderful city, meet wonderful people and walk the spectacular Dolomites, try tasty Italian dishes and enjoy the warm hospitality of the host school and staff!

We are sending our warm-hearted thanks for a fantastic experience that will live in our hearts for a long time and.....**cum cantu cum cantu popularum unio.**
