

OUR IMPRESSIONS FROM BRUSSELS

We arrived at Brussels Airport and we were very happy to see that the weather was wonderful. A kind teacher gave us a warm welcome!

The taxi that was booked for us was not there so we had to take another taxi (a bit more expensive!) and after a while we arrived at school. Even though we had some problems with the student's accommodation, by late at night finally, all the students were happy with their families.

On Monday the 28th of September we visited the European Parliament. It was a great experience for both teachers and students. At night we had a nice dinner at school and we returned to the hotel exhausted!

On Tuesday we had the Erasmus games. A very exciting activity even though the organizers didn't find our country's flag for the entrance ceremony! We had a lot of fun. We had lunch at a tennis club. We returned to school for dinner again! However, I have never imagined that French fries was a Belgian traditional dish!

We really enjoyed the concert given by the school band.

On Wednesday our team visited the Atomium, an extremely impressive attraction in Brussels. In the afternoon we met at school for the Erasmus chef contest. Although the school kitchen was quite small for so many countries we enjoyed the event. Our team was awarded the prize for

the best dessert. Daktyla and Soutzioukos! Yiami!

Thursday was a very interesting day as we visited the Belgian Red Cross and participated in some interactive activities. Next visit was at a refugee center. We had a nice international dinner at school cooked by students' parents and we tried some of the famous Belgian beers. On Friday we said goodbye to our Erasmus friends and started our trip back home. Overall, it was a nice experience despite the shortcomings. Thank you Belgium!
